Nassau TRACT Teacher Center Presents

An In-Person Tour and Exploration of the Nassau County Museum of Art's New Exhibit *The Beauty of the Air: Impressionism Around the World*

**Tuesday
March 29, 2022
4:00 PM to 7:00 PM**

The art on view will encourage a cross-cultural investigation of the popular art movement known as Impressionism. We will consider the following questions: What is Impressionism and why does it continue to be so popular? Why do contemporary artists continue to draw inspiration from this period in art history? How did artists across the globe influence each other's choice of subject, composition, color palette and artistic process?

Participants will also engage in an art project drawing landscapes using chalk pastels. Weather permitting, we will walk the grounds especially the Museum's Sculpture Garden.

This event is art centered; inquiry based and designed to engage viewers in participatory experiences and to address the NYS Learning and Common Core Standards for the Arts.

"You can't sit around and wait for somebody to say who you are. You need to write it and paint it and do it"

Faith Ringgold
