Present**

Education for Sustainability

**Whole School Approach to Sustainability
With Jaimie Cloud**

Wednesday, January 18, 2023

Jaimie Cloud cares passionately about the potential of schools and communities learning and working together toward sustainable community development. The Cloud Institute is dedicated to the vital role of education in creating awareness, fostering commitment and guiding actions toward a healthy, secure and sustainable future for ourselves and for future generations.

Jaimie is inspired by the potential of schools as learning organizations, children and students as leaders and schools and communities learning in partnership for a sustainable future. She has developed curriculum units and full courses of study that schools are using to design and innovate their own curricula to educate for sustainability.
