Dr. Ross W. Greene

*This session will address the current school climate and means to improve student engagement. Dr. Greene will provide techniques to understanding behavioral challenges as teachers and students acclimate to the hybrid model implemented in many schools.*

*Dr. Ross Greene is the New York Times bestselling author of the influential books **The Explosive Child**, **Lost at School**, **Raising Human Beings**, and **Lost & Found**. He is the originator of the innovative, evidence-based treatment approach called Collaborative & Proactive Solutions described in these books. The CPS model provides a compassionate, accurate understanding of behavioral challenges and a non-punitive, non-adversarial approach for reducing challenging episodes, solving problems, teaching skills, improving communication, and repairing relationships.*
